# Reveal FirePRO

## Description

**Durable, handheld thermal cameras**  
built for the field.

### HIGH-RESOLUTION THERMAL IMAGING FOR FIREFIGHTERS

When every second counts and lives are on the line, firefighters need every tool possible to increase their operation speed and enhance their situational awareness. For years, thermal imaging has been a vital firefighting technology, however mass-adoption has been cost-prohibitive. Introducing the Reveal FirePRO, Seek's high-resolution personal TIC with a 320 x 240 thermal sensor and intuitive software, priced for every firefighter's gear bag.

## Technical specification

Thermal Sensor	320 x 240 (76,800 pixels)
Detection Distance	12 inches to 1,800 feet
Field of View	Wide, 32 Degree FOV
Temperature Range	-4 to 1,202F (-20 to 650C)
Operating Temp	-4 to 140F (-20 to 60C) No time limit
Operating Temp (10min)	-4 to 185F (-20 to 85C) Up to 10 minutes
Operating Temp (2min)	-4 to 225F (-20 to 107C) Up to 2 minutes
Frame Rate	>15 Hz FastFrame
IP Rating	IP67 Waterproof
Flashlight	300 Lumen LED
Display	2.4" Color with Corning® Gorilla® Glass
Thermal Sensitivity	< 70 mK
User Interface	Self-Contained Device with 3 Button Navigation
Temp. Display Scale	Fahrenheit or Celsius
Color Filters	3 Options (FIRE, SURVEY, & COLOR)
Storage Media	4GB Internal Drive (>4,000 images)
Battery	Up to 3.5 Hours Thermal Imaging
