

Extinguishing Pike Pole

INNOVATIVE SOLUTION FOR FIGHTING WITH INTERNAL FIRES. COMBINES PIKE POLE HAND TOOL WITH WATER MIST LANCE TO DELIVER WATER TO AREAS WITH DIFFICULT ACCESS.

KEY FEATURES

Designed by firefighters for firefighters

Extinguishing Pike Pole was designed by professional firefighters - experts on internal fires whose efficiency depends on functionality of tools available for them to use. Extinguishing Pike Pole is an answer to a call for versatile demolition hand tool allowing to quickly deliver water to restricted areas if necessary.

Fast acting

Simultaneous demolition and water delivery feature helps firefighters to act quickly in emergency situations without need to swap between 2 different tools.

Versatile demolition-extinguishing tool

FM Extinguishing Pike Pole is excellent at clearing the way through the rubble or getting access to confined areas in order to assess the situation and build plan of action.

Advanced engineering

Engineered from the best quality metal alloys FM Extinguishing Pike Pole tool is acknowledged for its sturdy construction and durable service life. Lightweight and well balanced. Offers good quality fire stream controlled by precise ball valve.

TECHNICAL DATA

Efficiency	150 l/min
Max. Working Pressure	25 bar
Fire Stream	90 deg
Coupling	Storz 25 or GW 1"
Length	1500 mm
Weight	5 kg
