

# Portable Hand Hygiene Station

## FULLY PORTABLE & VERSATILE HYGIENE STATION FOR HAND CLEANING AND DISINFECTION.

Portable All-in-One Hand Hygiene Station MDR-1 for Hand Cleaning & Disinfection is recommended for use at key access points to businesses, institutions, venues and other places where hand cleaning and disinfection is necessary or highly recommended but standard stationary facilities are unavailable or cannot be installed i.e. medical tents, emergency shelters, temperature screening points, temporary quarantine areas, temporary transportation hubs, public transport, food or parcel handling and distribution points, medical supplies warehouses, emergency housing for homeless, construction sites, factories and plants, public institutions etc. Hygiene station can be installed in Fire Trucks and other vehicles, mobile units and platforms of any type. Easy to set-up and ready to work in minutes. Heavy-duty, made from high-quality, durable materials.

### KEY FEATURES

#### Better than Sanitiser

According to WHO soap and warm water are more effective than hand sanitisers at removing viruses from our hands. Especially when hands are dirty or greasy. Excessive use of hand sanitisers can also cause dry irritated skin due to high alcohol content.

#### Mobility

Portable unit which can be used without access to sewage or hot water and optionally even without running water supply.

#### All-in-One Hygiene Station

Everything you need to quickly and effectively clean and disinfect your hands integrated in one unit.

#### Compact Size

Small size and ergonomic design. Easy to relocate and install in a new place when needed.

#### Versatility

Station equipment and features can be customised to suit individual clients' requirements.

### STANDARD EQUIPMENT

- Hand washing module with heater to supply hot water at 40°C
- Soap dispenser 500 ml
- Roll paper towel dispenser
- Integrated sewage pump to eject waste water to a sewer system or a septic tank
- Universal connector with integrated Pressure Reducing Valve to connect station to any available water supply i.e. waterworks, hose, hydrant etc.
- Hand washing instruction sign according to WHO guidelines

### OPTIONAL EQUIPMENT

- Clean water pump to supply water from portable tanks
- Hand sanitiser dispenser
- Elbow soap dispenser
- Electric hand dryer
- Folded paper towel dispenser

### TECHNICAL DATA

Power supply	5000 W 1f-230V
Water flow	ok. 2 l/min
Water heating	35-40 OC
Water supply pressure	2-6 bar
Waste water pump efficiency	130 l/min
Waste water pumping distance	min 20 m
Dimensions (W x D x H)	580 x 700 x 1350 mm
Weight	35 kg
