

Axe FAL-8

CARBON-STEEL AXES FEATURING A SOLID HI-VIZ PULTRUDED FIBERGLASS HANDLE WITH A NON-SLIP GRIP. AVAILABLE IN FLAT HEAD AND PICK HEAD.

KEY FEATURES

These tools are made of American drop-forged-steel and have high-density and high-visibility handles with increased durability. The company's axes have a solid Hi-Viz pultruded fiberglass handle with a non-slip grip and are used for forcible entry / overhaul. These ANSI-compliant fire-rescue tools are made of high-carbon, heat-treated steel and are available in 36-inch length variants.
