

# Sledge hammer SLL-8HM

ANSI-COMPLIANT DOUBLE-FACE SLEDGE HAMMERS WITH A FIBREGLASS HANDLE; IDEAL FOR FORGING AND RIVETING APPLICATIONS. AVAILABLE IN DIFFERENT HEAD DIAMETERS AND OVERALL LENGTHS.

## KEY FEATURES

These tools are made of American drop-forged-steel and have high-density and high-visibility handles with increased durability. The company's axes and sledges have a solid Hi-Viz pultruded fiberglass handle with a non-slip grip and are used for forcible entry / overhaul.
