

Leatherhead Sledge Hammer

Leatherhead 8 lb Sledge Hammer delivers powerful striking performance for firefighting and rescue operations. The drop-forged head and high-visibility fiberglass handle provide durability, control and operational visibility.

KEY FEATURES

- **Drop-forged high-carbon steel head**
- **8 lb striking mass** for powerful impact
- **36" handle length** for full striking leverage
- **Hi-Viz Lime pultruded fiberglass handle**
- **Reflective striping** for visibility in smoke-filled environments
- Fiberglass construction resistant to moisture and long-term fatigue
- **HM configuration compatible with Halligan marrying system**
- Manufactured **in the USA**

TECHNICAL DATA

Specification	Value
Model	SLL-8-36HM
Head Weight	8 lb
Length	36"
Head Material	Drop-forged high-carbon steel
Handle	Hi-Viz Lime pultruded fiberglass
Halligan Compatibility	HM (marrying option)
Country of Origin	USA

RECOMMENDED PAIRING

Heavy Irons

Sledge Hammer **SLL-8-36HM**

- Halligan **LB-36 / LB-42**

This configuration provides **higher striking energy**, allowing firefighters to drive the Halligan deeper into reinforced door assemblies.

PRIMARY APPLICATIONS

Forcible entry • Structural breaching • Halligan striking • Overhaul

PRODUCT-MARKET INSIGHT

The 36" configuration provides the optimal balance between striking force and control, making it suitable for both interior and exterior forcible entry operations.
