

# Sharp Edge Protection Covers

Sharp Edge Protection Covers are designed to protect rescue teams from injuries caused by sharp edges and cut-off vehicle parts during crashes and accidents. They can be applied across vehicle bodywork (e.g. roof, sides, doors, fenders) and are intended for quick, easy and effective set-up.

## KEY FEATURES

- Available as various sets with protection hoods and blankets in multiple sizes
- Suitable for use across vehicle bodywork (roof, sides, doors, fenders, etc.)
- Strong and durable materials (Cordura and Complan), water-repellent and washable
- Multi-layer special fleece to prevent piercing by metal
- Secure hold without slipping using Velcro tapes and sewn-in magnets
- Additional safety due to air cushion formation between materials
- Supplied with a carrying bag (per set configuration)

## TECHNICAL DATA

- Available sizes: 270 × 320 mm, 620 × 620 mm, 1620 × 620 mm.
- Materials: Complan 670 g/m<sup>2</sup>, Drenotex 600 g/m<sup>2</sup>, Cordura 600 g/m<sup>2</sup>.
- Fastening components: Velcro 30 mm, Neodymium magnet 20×5 / N35.
- Straps: impregnated polyester straps.
- Anti-piercing layer: multi-layer special fleece.
