

# Windscreen Splinter Guard

Shatter protection to keep glass splinters away from the accident victim. Necessary for a patient-friendly rescue operation. Depending on the accident circumstances and condition of the injured person, it can be used with a transparent window or with a completely closed non-transparent surface.

## KEY FEATURES

- Strong and durable material Cordura 600g/m<sup>2</sup>
- Strong magnets to hold the guard on steel roof vehicles
- Velcro tape to hold the guard on aluminium or plastic bodies
- Foam sewn into the lower edge of the guard to fix securely between the windscreen and the dashboard when pressed in
- Carrying bag
