

SORBI Sorbents & Pillows

**Control the spill.
Contain the danger.**

Advanced mineral sorbents and cushions engineered for rapid containment of hazardous, toxic or flammable substances: acids, oils, paints, fuels or solvents.

Provide maximum absorption, insulation and fire resistance to protect responders and the environment during HazMat transport, storage and cleanup.

- **High absorption rate:** Captures liquids fast → limits contamination spread.
- **Non-flammable mineral base:** Class A1 → safe under heat or flame.
- **Chemically inert:** Works with acids, oils, fuels → no reactions
- **Reusable and durable:** Long shelf life → always ready to deploy.
- **Lightweight form:** Easy to carry → efficient for field response.
- **Wide temperature range:** -260 °C to +1200 °C → handles extremes.
